*Fostering Court Improvement (FCI) is a court-agency model promoting a working partnership between the courts, child welfare agencies, the legal community and other key stakeholders. It includes the implementation of an on-going collaborative "team" approach to implement, at local level, system reforms designed to improve safety and permanency outcomes for children in foster care. Participation is voluntary and funding is provided through the State Court Improvement Program Grants (Family Court Committee, 2014).
